

ELECTRICAL INSULATION TAPE DISCRIPTION

AVAILABLE COLOR

Available in all standard color (Red, Black, Green, white, Yellow, Blue etc)

CABLE TIE DISCRIPTION

Nominal width : 1.7 mm
Nominal length : 6 meter
Nominal thickness : 0.125 mm
Type : F-PVCp/90/0/Tp

Key Features:

- **Material** : Usually made from vinyl (PVC), which gives it flexibility, durability, and resistance to moisture, abrasion, and corrosion.
- **Adhesive** : Rubber-based adhesive for strong sticking power.
- **Insulation** : Designed to resist electric current, protecting from shorts and shocks.
- **Temperature Rating** : Most are rated for use up to 80°C to 105°C.
- **Colors** : Commonly black, but available in many colors (red, blue, yellow, green, white) to help in phase identification and wire color coding.
